

MANN-PAK, INC.

CAPABILITIES GUIDE

Introducing Our Identity, Values, and Capabilities

About the Company

Mann-Pak, Inc. is a second-generation, veteran- and family-owned flexible packaging company based in Baltimore, Maryland. Founded in 1987, the company combines more than 35 years of industry experience with specialized printing, converting and packaging capabilities

Our Story

A. Joseph Manning, a Marine Corps veteran, started Mann-Pak in 1987. In 2009, the company relocated its operation to a larger, state-of-the-art Maryland facility designed with material flow, sustainability and future growth in mind. In 2010, Mann-Pak expanded into printing and folding low-gauge polyolefin shrink films.

Vision and Mission

Mann-Pak's mission centers on quality, innovation, sustainability, customer relationships and practical solutions that help customers maximize productivity and profitability. We are your packaging partner, not just a supplier.

What sets Mann-Pak apart

3 CHARACTERISTICS THAT SET MANN-PAK APART

01 CUSTOM APPROACH

Packaging is developed around the customer's product, process, dimensions, handling needs, and presentation goals.

02 FULL-SERVICE CONVERTING

Printing, slitting, centerfolding, toll converting, finishing, and design consulting in one workflow.

03 INDUSTRY KNOW-HOW

Decades of flexible packaging experience guide material and format choices that perform in real production.

Capabilities & Equipment

Flexographic Printing

8-color central-impression presses; projects up to 48 inches wide; light-gauge films up to 3 mil; Paper substrates up to 50 #.

Slitting

Wide-web and narrow-web roll-to-roll slitting, with slit widths down to 2 inches on 3- and 6-inch cores.

Centerfolding

Precision folding for flexible packaging films, with current site specifications ranging from a minimum of 12" wide.

Toll Converting

Customer-supplied materials can be processed through printing, slitting, winding, and/or centerfolding to a specified finished format.

Specialty Coatings

Heat seal and barrier coating options for applications requiring added protection or functionality.

Print Design Consulting

Artwork, color, material, and production guidance to help packaging print correctly and perform as intended.

Products & Packaging Solutions

Mann-Pak's portfolio spans high-performance films, papers and speciality materials designed for protection, presentation, shelf life, and efficient packaging operations.

POLYOLEFIN SHRINK FILMS

Strong, clear films with consistent shrinkage and tear resistance. Grades include general-purpose, crosslinked/high-abuse, anti-fog and biodegradable options.

OVERWRAP FILMS

Transparent, opaque and metallized options for multipacks, direct mail and confectionery applications, combining presentation with protection.

GLASSINE / CUPSTOCK OVERWRAP

Smooth, refined paper-based overwrap with moderate grease resistance for chocolates, cookies, pastries and similar applications.

LIDDING FILMS

Barrier-focused films for refrigerated, frozen and fresh foods, with easy-peel or lock-seal functionality, anti-fog options and steam-cooking capabilities.

LAYER BOARD

Uncoated, clay-coated, polycoated and perforated paperboard rollstock for candies, baked goods and snack packs.

BUNDLING FILMS

Durable shrink bundling films for automated heat-tunnel applications, including multipacks and bulk products.

SPECIALTY PRODUCTS

Mann-Pak, Inc. offers specialty packaging solutions including barrier laminations, high-barrier films, and plastic and shrink bags for a variety of industrial and retail applications.

Industries We Serve

Mann-Pak serves a range of food, consumer and light-industrial applications where packaging must protect the product while supporting efficient production and strong presentation

QUALITY

Mann-Pak is SQF Certified, reflecting a commitment to food safety, traceability and quality control. The company's site also emphasizes reliable, consistent packaging performance and customer guidance.

SUSTAINABILITY

Mann-Pak offers biodegradable films, recyclable materials and other eco-conscious packaging options. The company's stated mission includes environmental responsibility and consideration of sustainability in its operations and products.

The goal: packaging that performs in production, protects what's inside and supports the customer's broader business objectives

MANN-PAK Inc.
Covers It ALL

- Candy
